CIRCUIT ONLY

FROM 39 900 EUR

Your gateway to the world of motorsport. We have created a configuration that suits those who push their driving skills and enjoy the immediate emotion from the expression of the car in their hands.

The basic configuration of the **Sigma WR Circuit Only** is a purely circuit car without road homologation. It isn't equipped with lights or handbrake. To reduce weight, it lacks a passenger seat and seat belts.

ROAD LEGAL

FROM 48 900,00 EUR

The joy of driving and a passion for district roads. This lifestyle deserves a **Road Legal** version. You'll enjoy beautiful weather, fresh air and a roaring engine right behind you.

The car is homologated as road-legal for everyday use.

ADDITIONAL EQUIPMENT BEYOND THE BASIC EQUIPMENT:

- Seat and passenger seat belt
- Headlights and daytime running lights
- Road exhaust meeting the Euro 6 standards
- Mechanical handbrake

GRAND TOURING

FROM 56 470,00 EUR

Discover, travel and explore. The Grand Touring version is ready for any road trip. Together with your co-driver, you can pack up and go. You'll appreciate the comfort on your journeys. And if you happen to come across a nice stretch of road, you'll enjoy it immensely.

A car aimed at excursions and exploring extraordinary roads. Supplemented with comfortable equipment and storage spaces.

ADDITIONAL EQUIPMENT BEYOND THE BASIC EQUIPMENT:

- All off the Road Legal configuration equipment
- Wilwood two-piece sport discs
- HP Sporting adjustable shock absorbers (bump/rebound)
- Seat padding
- Bi-LED headlights
- Windshield
- Design side grilles
- Luggage rack above the engine
- Luggage bags
- Interior bag and net set
- Glovebox in front of the passenger
- Shock absorber filler caps
- Custom paintwork & visualisation

PERFORMANCE

FROM 68 700,00 EUR

A circuit special mastered into the perfection. **The Performance** version is ready to go all out, whether you're chasing the best result or determined to push your limits.

A car in the highest specification. Designed for the circuit. Suitable for the time attacks and endurance racing. Still remains homologated as road-legal for common use.

ADDITIONAL EQUIPMENT BEYOND THE BASIC EQUIPMENT:

- All off the Road Legal configuration equipment
- Wilwood 4-piston calipers + two-piece grooved sports discs
- Balance bar - adjustable braking balance on the move
- Aluminium tie rods with adjustable wheel camber
- ARB - front and rear stabilisers to counteract body roll
- HP Sporting adjustable bump/rebound dampers
- Additional oil cooler
- Cooling optimization
- Side air scoops
- Reinforced axle shafts
- Lightweight aluminium pedal system
- 5-point seat belts
- Seat padding
- Windshield
- Design side grilles
- Aluminium fender brackets
- Front spoilers and rear wing
- Protective frame
- Forged wheels
- Semi-slick Yokohama A052
- Custom paintwork

YOUR CAR **YOUR STYLE**

Individual approach and uniqueness of your Sigma WR is a matter of course for us. We make sure that the car we configure together will be original and give you the opportunity to customize every detail to your liking.

The frame, wheels, springs and even the interior can be customised to your individual preferences. Each Sigma will be a truly unique piece.

CONTACT US AND SCHEDULE YOUR TEST DRIVE

Or let's just talk about all the possibilities your unique Sigma WR has to offer.
